Chapter 1: Autonomous AI Marketing Employees

Design specialized agent personas: Content Strategist Agent, Paid Media Optimizer Agent, and SEO Technical Auditor.

Each agent operates with its own tool access, memory vectors, and strict quality verification loops.

Deploy the included multi-agent LangGraph template to coordinate handoffs between agents seamlessly.

Chapter 2: Full Agency Operating System

Scale high-ticket AI marketing services with proven SOPs, client discovery questionnaires, and prompt playbooks.

Leverage our bespoke client delivery checklists to cut delivery turnaround from 14 days to 48 hours.

Includes access to 1-on-1 strategy onboarding with AutoGreen senior AI architects.
